7.3.1 - Portray the performance of the Institution in one area distinctive to its priority and thrust

Sukanta Mahavidyalaya represents the ascension to a new level of academic success by seeking to innovate and provide high-quality education. The key areas which this organization works on include providing enough infrastructures, sports facilities, enriching the library, providing adequate orientation for students towards the working world, and promoting effective learning. Our educational establishment has created several working groups for the purpose of providing holistic real worth education and instill entrepreneurial skills for nurturing students such as an Examination Committee, a Cultural Committee, Admission Committee and others. Authentic G-Suite official mail IDs have also been issued for everyone to ensure that all departments and workplace correspondences run smoothly. For conserving energy, the institution produces electricity by solar panels. This organization is completely accessible to people with disabilities. We mentor students and residents in remote regions by adopting neighboring communities. Our institution's NSS and NCC branches inculcate good social morality betterment among the undergraduates through social and cultural activities inside and outside the college throughout the year. Our institution's NSS and NCC branches also took some developmental strategies for adopted villages in Jalpaiguri district, West Bengal. The college runs an NSOU and RBU study centers for students from this underserved area who want to pursue education. The institution's daily tasks include academic and administrative audits, teacher development opportunities, webinars, lectures, and student-centric events. Given all the college's constructive things, we hope that our Institution will be able keep up the space for sustaining the principles of integrity, governance and accountability, ethical practice, and other activities in coming years.
