Programme and course outcomes

The university develops the programme curriculum; however, the college authority and/or faculty members established the following programme outcomes of each programme provided by the institution.

Programme Outcomes: B.A.Honours

- i) Students completing B.A. Hons from this college are supposed to have a reasoning skill that will help them to address problem-solving challenges that they would encounter in their further studies.
- ii) Students are anticipated to become quite capable of communicating their grasp of the subject-related issues after completing the programme.
- iii) Students who complete this course will be able to speak freely, evaluate academic presentations in any format, and discuss topics that promote cross-discussion.
- iv) Project work and field studies give them the opportunity to learn independently and practice with academic concepts, students were taught in classroom.
- v) Students who complete this course seem to be able to connect what they have learned in classroom teaching to social and national issues.
- vi) This college prepares learners to conduct basic research and hence motivates them to pursue cutting edge research once they pursue higher education.
- vii) Students who successfully complete the curriculum, gain confidence in their ability to find work.
- viii) The course instils stronger life values in pupils, enabling them to become good citizens.

From The Principal :

Re. :

dt. :

v) As a result of this course, a student's interacting ability is enhanced, and he gets skilled enough to propose his creative ideas autonomously.

vi) This curriculum also encourages pupils to engage actively in many socio-cultural and economic pursuits that they may have learned about in classroom.

vii) This curriculum encourages learners to do comprehensive and organized study in a variety of areas of knowledge that have yet to be investigated.

viii) Knowledge of the domain's intellectual, moral, economic, safety, and societal challenges and obligations.

ix) Learners who complete this course are found to be employable.

x) The most important result of the curriculum would be that students leave with stronger life priorities.
