

## Department of Education

### Sukanta Mahavidyalaya

#### 1.3.3. A project report on Experimental learning and Student details

Project work has been included in the Discipline Specific Elective Course in the 6<sup>th</sup> semester syllabus of North Bengal University. Through this project work students can acquire knowledge through hands-on practical experience. In the 2020-21 academic year of Sukanta Mahavidyalaya, 53 students of the 6<sup>th</sup> semester of the Department of Education participated in this project work. The students completed the project work by selecting different subjects with the help of teachers. The Department of Education has received the expected topics from them. The Department of Education of Sukanta Mahavidyalaya hopes that they will do better projects in the coming days.

#### List of Students (Dept. of Education)

|                           |                    |
|---------------------------|--------------------|
| ABHIJIT BARMAN            | NIKITA ROY         |
| ANKITA PAUL               | OLIVA HORO         |
| ARPITA RAHA               | PANCHIMI ROY       |
| AVIJIT SARKAR             | PINKI ROY          |
| AYANTIKA BOSE             | PRANTANA BARMAN    |
| BIBIKA ORAON              | PRITILATA ADHIKARY |
| BIPLAB ROY                | PRIYANKA MANDAL    |
| BISWAJIT SARKAR           | RAJU ROY           |
| BULBUL ALAM               | RAKESH ROY         |
| CHAMPA MANDAL             | RAKHIB HOSSAIN     |
| CHANDAN ROY               | RIMPA DUTTA        |
| CHANDMONI ROY             | SAMIT SARKAR       |
| CHUMKI DEB                | SAMPA DAS          |
| CHUMKI SARKAR             | SANJAY DEY         |
| DAYAL ROY                 | SANJAY ORAON       |
| DONA ROY                  | SHEFALI DAS        |
| GAYETRI ADHIKARI          | SHREYA MODAK       |

| MANDIRA PAUL              | MRINAL ROY         |

## Department of Geography

### Honours Course

#### 1.3.3. A project report on Experimental learning and Student details

##### First semester Honors

##### 1. Geotectonics : CC1-01PR

The main practical topics are map scale and map projection. The map scales are used to determine physical distance and size of geographical area. It indicates the distance between 2 points on a map bears the distance between the corresponding points on the actual ground.

The method used to portray a part of the spherical Earth on a flat surface whether a paper map or a computer. In other words a map projection systematically renders a 3D ellipsoid of Earth to a 2D map surface. 3D services cannot be perfectly displayed in two dimensions hence distortions occur. Therefore each type of projection preserves a particular property distorting the other properties. It is up to the cartographer to determine which projection is most suitable for this purpose.

##### Name of the student studied course on experiential learning through project work/field work/internship

RATAN BARMAN , RISHITA PAUL, RESHMI PARVIN, MANOJ DEY, NILAY SARKAR, SAMIT CH.SAHA, PIYALI GHOSH, KAUSHIK ROY, ADITYA ROY, ANINDITA ROY KAYET, KAKALI BARMAN, ARPITA SAHA, DEEP PAL, DHARMISTHA ROY, SOUMIK SARKAR, TAPASH SARKAR

##### 2. Geomorphology: CC1-02PR

Topographic maps show physical and cultural features with the help of conventional symbols. It has multiple uses in the present day in any type of Geographic planning or large scale architecture, earth sciences, civil engineering and even the present Remote Sensing and GIS.

The study of Rocks and Minerals help students understand the constituent minerals they are composed of and structure, the relationship between rocks and landform features.

**Name of the student studied course on experiential learning through project work/field work/internship**

RATAN BARMAN , RISHITA PAUL, RESHMI PARVIN, MANOJ DEY, NILAY SARKAR, SAMIT CH.SAHA, PIYALI GHOSH, KAUSHIK ROY, ADITYA ROY, ANINDITA ROY KAYET, KAKALI BARMAN, ARPITA SAHA, DEEP PAL, DHARMISTHA ROY, SOUMIK SARKAR, TAPASH SARKAR

**SECOND SEMESTER**

**1. Human Geography: Course Code: GEO-H-CC-2-03-PR–Practical**

While studying human geography students will learn how spatial processes such as migration, landscape change and spatial planning shape people's lives and activities. The study of these devices and tools which are involved in their construction and use. Practical Geography: A systematic approach explains the techniques of surveying and Cartography, using mathematical and Statistical methods.

**Name of the student studied course on experiential learning through project work/field work/internship**

RATAN BARMAN , RISHITA PAUL, RESHMI PARVIN, MANOJ DEY, NILAY SARKAR, SAMIT CH.SAHA, PIYALI GHOSH, KAUSHIK ROY, ADITYA ROY, ANINDITA ROY KAYET, KAKALI BARMAN, ARPITA SAHA, DEEP PAL, DHARMISTHA ROY, SOUMIK SARKAR, TAPASH SARKAR

**2. Settlement Geography: Course Code: GEO-H-CC-2-04-PR – Practical**

The primary aim of studying settlement geography is to acquaint with the spatial and structural characteristics of human settlements under varied environmental conditions. It helps to identify the economic and social development of a place and can show its main activity. Most large settlements have more than one function though in the past one function was maybe the most important in defining the success and growth in importance of the settlement.

**Name of the student studied course on experiential learning through project work/field work/internship**

RATAN BARMAN , RISHITA PAUL, RESHMI PARVIN, MANOJ DEY, NILAY SARKAR, SAMIT CH.SAHA, PIYALI GHOSH, KAUSHIK ROY, ADITYA ROY, ANINDITA ROY KAYET, KAKALI BARMAN, ARPITA SAHA, DEEP PAL, DHARMISTHA ROY, SOUMIK SARKAR, TAPASH SARKAR

### 3rd semester Honors

#### 1. Climatology: CC3-05-PR

The topic includes meteorological instruments and daily weather interpretation and representation of the climatic data. These topics help students learn how to measure the air temperature, air pressure on a daily or monthly basis. The topic also helps to learn to interpret the symbols used in Indian weather maps and analyze and how to represent climatic data through the technique of climograph and hythergraph.

#### Name of the student studied course on experiential learning through project work/field work/internship

RIMI ROY, JAHIRA BANU, PRIYANKA ROY, SURIYA PARVEEN, SHIBANI ROY, LABANI BHOWMIK  
RINITA DAS, BIDYUT MANDAL, BIKRAM ROY, RAHUL AHAMED, RAJU HOSSAIN, ROSHAN LAMA  
BHASKAR BISWAS, SUBRATA ROY, JEET SAHA, BISWAJIT ROY, BIRAJ ORAON

#### 2. Statistical method in geography : CC3- 06-PR

The topics include basic statistical terms, calculation of measures of Central tendency correlations.

The topics are mathematical science that works with numerical data. It helps better understanding and accurate description of nature's phenomena and also helps in efficient planning in many fields of study. It helps to form a base for research and how real life experiments of a phenomena can be numerically validated.

#### Name of the student studied course on experiential learning through project work/field work/internship

RIMI ROY, JAHIRA BANU, PRIYANKA ROY, SURIYA PARVEEN, SHIBANI ROY, LABANI BHOWMIK  
RINITA DAS, BIDYUT MANDAL, BIKRAM ROY, RAHUL AHAMED, RAJU HOSSAIN, ROSHAN LAMA  
BHASKAR BISWAS, SUBRATA ROY, JEET SAHA, BISWAJIT ROY, BIRAJ ORAON

#### 3. Geography of India: CC3-07-PR

The topics of study are rainfall and temperature graphs in selected stations and decadal growth rate of population. The inequality measuring methods are Lorenz curve and Gini coefficient. The former is the graphical method of expression and the latter is the mathematical method of measuring the inequality regarding any population nature. The students will learn about the various ways of expressing the population characteristics.

**Name of the student studied course on experiential learning through project work/field work/internship**

RIMI ROY, JAHIRA BANU, PRIYANKA ROY, SURIYA PARVEEN, SHIBANI ROY, LABANI BHOWMIK  
RINITA DAS, BIDYUT MANDAL, BIKRAM ROY, RAHUL AHAMED, RAJU HOSSAIN, ROSHAN LAMA  
BHASKAR BISWAS, SUBRATA ROY, JEET SAHA, BISWAJIT ROY, BIRAJ ORAON

## **FOURTH SEMESTER**

### **1. Economic Geography: Course Code: GEO-H-CC4-08-PR – Practical**

Economic geography is a sub-field within the larger subjects of geography and economics. Researchers within this field study the location, distribution, and organization of economic activity around the world. Economic Geography is important in both developed and underdeveloped nations such as the United States, India, China, Bangladesh because it allows researchers to understand the structure of the area's economy and its economic relationship with other areas around the world.

**Name of the student studied course on experiential learning through project work/field work/internship**

RIMI ROY, JAHIRA BANU, PRIYANKA ROY, SURIYA PARVEEN, SHIBANI ROY, LABANI BHOWMIK  
RINITA DAS, BIDYUT MANDAL, BIKRAM ROY, RAHUL AHAMED, RAJU HOSSAIN, ROSHAN LAMA  
BHASKAR BISWAS, SUBRATA ROY, JEET SAHA, BISWAJIT ROY, BIRAJ ORAON

### **2. Regional Planning and Development: Course Code: GEO-H-CC4-09-PR – Practical**

Regional Planning is a multidisciplinary approach which aims at holistic development of a region. Regional Planning is a specific type of planning, based on, specific planning structure for inducing public action aimed at societal wellbeing. It implies that Regional

Planning is concerned fundamentally with the society in the context of space. Regional Planning is considered as a geo-technology for comprehensive development of regions through rational transformation of regional space. It seeks to recognize space more rationally with a view to achieving greater regional integration

**Name of the student studied course on experiential learning through project work/field work/internship**

RIMI ROY, JAHIRA BANU, PRIYANKA ROY, SURIYA PARVEEN, SHIBANI ROY, LABANI BHOWMIK  
RINITA DAS, BIDYUT MANDAL, BIKRAM ROY, RAHUL AHAMED, RAJU HOSSAIN, ROSHAN LAMA  
BHASKAR BISWAS, SUBRATA ROY, JEET SAHA, BISWAJIT ROY, BIRAJ ORAON

**3. Field Work and Research Methodology: Course Code: GEO-H-DSC-4-10-PR - Practical (Field Survey)**

Field research is defined as a qualitative method of data collection that aims to observe, interact and understand people while they are in a natural environment. For example, nature conservationists observe behavior of animals in their natural surroundings and the way they react to certain scenarios. In the same way, social scientists conducting field research may conduct interviews or observe people from a distance to understand how they behave in a social environment and how they react to situations around them. To complete and analyze a few objectives students need to follow a distinct methodology. 4<sup>th</sup> semester (H) and 6<sup>th</sup> semester (H) students of 2022 went to Dzungri village, Upper Pelling, Sikkim to study and observe their way of life to cope up with landslide hazards.

**Name of the student studied course on experiential learning through project work/field work/internship**

RIMI ROY, JAHIRA BANU, PRIYANKA ROY, SURIYA PARVEEN, SHIBANI ROY, LABANI BHOWMIK  
RINITA DAS, BIDYUT MANDAL, BIKRAM ROY, RAHUL AHAMED, RAJU HOSSAIN, ROSHAN LAMA  
BHASKAR BISWAS, SUBRATA ROY, JEET SAHA, BISWAJIT ROY, BIRAJ ORAON

**Fifth semester Honors**

**1. Environmental geography: CC5-11-PR**

The content for both Honors and Program courses are the same in this paper. The content of the course is preparation of a project report based on environmental problems. The syllabus will make the students learn and practically understand the burning environmental issues today. They

will be more aware about the problem as well as they will learn how to design, collect data and assimilate as well as write a project report.

**Name of the student studied course on experiential learning through project work/field work/internship**

SABINA PARVIN, SANJITA ADHIKARY, SUPRIYA BARMAN, NABANITA BASAK, SAMIR BASUNIA, RAJU DAS, SIGMA DATTA, TRISHA DEB, PRIYA GHOSH, HIMANI ROY, RAMEN ROY, SUJOY ROY, SAMAYITA SAHA

## **2. Remote sensing and GIS: CC5-12-PR**

This is the new development as well as the most advanced topic in geography as a science. The knowledge of Remote sensing and GIS as well as the aerial photo interpretation, satellite imagery image processing classification etc constitute the content of this paper.

The content will help the students learn about the new techniques in Remote Sensing and GIS, their application in various subjects and the importance of these modern techniques which is very vital in the modern times.

**Name of the student studied course on experiential learning through project work/field work/internship**

SABINA PARVIN, SANJITA ADHIKARY, SUPRIYA BARMAN, NABANITA BASAK, SAMIR BASUNIA, RAJU DAS, SIGMA DATTA, TRISHA DEB, PRIYA GHOSH, HIMANI ROY, RAMEN ROY, SUJOY ROY, SAMAYITA SAHA

## **5th semester DSE**

### **1. Population Geography: DSE 5-01-PR**

The content includes population projection, density mapping, and work participation rate. The topics help to learn about the population projection, the concept of density of the population, area identification of low and high density, and its relationship with other causal factors for population growth and distribution. The study also includes the number of people participating in different sectors of the economy which help to identify the real life situation of the people participating as there will be use of authentic data like Census of India, NSSO. Etc

**Name of the student studied course on experiential learning through project work/field work/internship**

SABINA PARVIN, SANJITA ADHIKARY, SUPRIYA BARMAN, NABANITA BASAK, SAMIR BASUNIA, RAJU DAS, SIGMA DATTA, TRISHA DEB, PRIYA GHOSH, HIMANI ROY, RAMEN ROY, SUJOY ROY, SAMAYITA SAHA

**2. Urban geography: GEO-DSE5-02-PR**

In this paper, topics include rank size method, State wise variation and trend in urbanization.

The paper helps to understand the pattern of distribution of urban centers scientifically. Rank size method is one of the accepted methods for studying or analyzing the pattern of distribution of urban centers. The exact state wise variation and trend of urbanization can be observed from the data taken from census population.

**Name of the student studied course on experiential learning through project work/field work/internship**

SABINA PARVIN, SANJITA ADHIKARY, SUPRIYA BARMAN, NABANITA BASAK, SAMIR BASUNIA, RAJU DAS, SIGMA DATTA, TRISHA DEB, PRIYA GHOSH, HIMANI ROY, RAMEN ROY, SUJOY ROY, SAMAYITA SAHA

**SIXTH SEMESTER**

**1. Evolution of Geographical Thoughts: Course Code: GEO-H-CC-6-13-PR – Practical**

“Geographic thought” as commonly understood in the discipline of geography encompasses the development of geographic knowledge in particular places, times, and contexts. Accordingly, it has traditionally been—and continues to be—primarily approached from a historical perspective. This is a new course that develops a conceptual framework for studying evolution within the context of interconnected Earth physical systems and life, including humans, and the processes that have changed them as they relate to geography.

**Name of the student studied course on experiential learning through project work/field work/internship**

SABINA PARVIN, SANJITA ADHIKARY, SUPRIYA BARMAN, NABANITA BASAK, SAMIR BASUNIA,  
RAJU DAS, SIGMA DATTA, TRISHA DEB, PRIYA GHOSH, HIMANI ROY, RAMEN ROY, SUJOY ROY,  
SAMAYITA SAHA

## **2. Disaster Management: Course Code: GEO-H-CC-6-14-PR –Practical**

Disaster management refers to the conservation of lives and property during natural or human-made disasters. Disaster management plans, by protecting from disease and droughts. Disaster management can be either natural disasters or man-made disasters. In this area students learn different techniques and mitigation strategies to cope up with naturally made hazards and disasters.

### **Name of the student studied course on experiential learning through project work/field work/internship**

SABINA PARVIN, SANJITA ADHIKARY, SUPRIYA BARMAN, NABANITA BASAK, SAMIR BASUNIA,  
RAJU DAS, SIGMA DATTA, TRISHA DEB, PRIYA GHOSH, HIMANI ROY, RAMEN ROY, SUJOY ROY,  
SAMAYITA SAHA

## **SIXTH SEMESTER**

*(Students will have to choose any two courses: Advanced Cartography or Political Geography and Hydrology & Oceanography or Social Geography)*

## **3. Advanced Cartography: Course Code: GEO-H-DSE-6-03-PR: Advanced Cartography**

Cartography or mapmaking is the study and practice of making maps. Map making involves the application of both scientific and artistic elements, combining graphic talents and specialized knowledge of compilation and design principles with available techniques for product generation. Map function as visualization tools for spatial data. Spatial data is stored in a database and extracted for a variety of purposes. The traditional analog methods of map making have been replaced by digital interactive maps that can be manipulated digitally. Modern cartography like many other fields of “information technology” has undergone Rather than merely drawing maps the cartographic process is concerned with I) Data manipulation, II) Data capture, III) Image processing and IV) Visual display. Cartographic representations may appear in printed form or as

dynamic images generated on a computer display screen. Computer assisted mapping systems have added a new and exciting dimension to cartographic techniques and traditional methodologies have to be augmented with new skills. The fundamental nature of cartography has changed with the evolving technologies, providing cartographers with new methods for visualization and communication of spatial information.

**Name of the student studied course on experiential learning through project work/field work/internship**

SABINA PARVIN, SANJITA ADHIKARY, SUPRIYA BARMAN, NABANITA BASAK, SAMIR BASUNIA, RAJU DAS, SIGMA DATTA, TRISHA DEB, PRIYA GHOSH, HIMANI ROY, RAMEN ROY, SUJOY ROY, SAMAYITA SAHA

**Social Geography: Course Code: GEO-H-DSE-6-04-PR: Social Geography**

Social geography is the branch of human geography that is interested in the relationships between society and space, and is most closely related to social theory in general and sociology in particular, dealing with the relation of social phenomena and its spatial components. In a nutshell, social geography focuses on the scientific study of **the relationship of society and space (spatial components)**. It is interested in answering the questions of how societal processes determine space and its structures and how spatial conditions determine the existence of societies.

**Name of the student studied course on experiential learning through project work/field work/internship**

SABINA PARVIN, SANJITA ADHIKARY, SUPRIYA BARMAN, NABANITA BASAK, SAMIR BASUNIA, RAJU DAS, SIGMA DATTA, TRISHA DEB, PRIYA GHOSH, HIMANI ROY, RAMEN ROY, SUJOY ROY, SAMAYITA SAHA

**Programme Course**

**FIRST SEMESTER**

**1. Physical Geography: Course Code: GEO-P-CC-1-01-PR: Practical**

Physical geography is the study of the processes that shape the Earth's surface, the animals and plants that inhabit it, and the spatial patterns they exhibit. Self-identified in the mid- to late 1800s, physical geographers and in particular geomorphologists dominated the discipline of geography to the late 1930s.

**Name of the student studied course on experiential learning through project work/field work/internship**

SURAJIT ROY, SATYAJIT ROY, SURAJ ROY, SUBHAM MITRA, KEYA ROY, PRIYA DAS,  
KETAN DAS

**SECOND SEMESTER**

**1. Human Geography: Course Code: GEO-P-CC-2-02-PR: Practical**

While studying human geography students will learn how spatial processes such as migration, landscape change and spatial planning shape people's lives and activities. The study of these devices and tools which are involved in their construction and use. Practical Geography: A systematic approach explains the techniques of surveying and Cartography, using mathematical and Statistical methods.

SURAJIT ROY, SATYAJIT ROY, SURAJ ROY, SUBHAM MITRA, KEYA ROY, PRIYA DAS,  
KETAN DAS

**THIRD SEMESTER**

**1. Regional Development: Course Code: GEO-P-CC-3-03-PR: Practical**

Regional development is a broad term but can be seen as a general effort to reduce regional disparities by supporting (employment and wealth-generating) economic activities in regions.

**Name of the student studied course on experiential learning through project work/field work/internship**

SUMAN JHA, SOMNATH JHA, BARSHA ROY, PINKI ADHIKARY, JYOTIRMOY ROY, SAMRAT  
GHOSH, LOVELY ROY, PRIYA DAS

**FOURTH SEMESTER**

**Spatial Information Technology: Course Code: GEO-P-CC-4-04-PR: Practical**

Spatial information technology aims to provide information about the Earth's surface. It includes all the tools and technologies that enable us to acquire information and provide decision-making capability towards planning and sustainable management. The most important technologies are remote sensing, GPS and GIS.

**Name of the student studied course on experiential learning through project work/field work/internship**

SUMAN JHA, SOMNATH JHA, BARSHA ROY, PINKI ADHIKARY, JYOTIRMOY ROY, SAMRAT GHOSH, LOVELY ROY, PRIYA DAS

**FIFTH SEMESTER**

**1. Disaster Management: Course Code: GEO-P-DSE-5-01-PR: Practical**

The content for both Honors and Program courses are the same in this paper. The content of the course is preparation of a project report based on environmental problems. The syllabus will make the students learn and practically understand the burning environmental issues today. They will be more aware about the problem as well as they will learn how to design, collect data and assimilate as well as write a project report.

AVIJIT ROY, BARNALI SARKAR, BISWAJIT BISWAS, GOURAV BASAK, JHILAM DAS, JAYABRATA SEN, NABAKISHOR SARKAR, PRIYANKA PAUL, PRIYANKA ROY, SANJOY SARKAR, SOUMEN DAS

**SIXTH SEMESTER**

*(Students will choose either Climate Change: Vulnerability and Adaptation or Rural Development)*

**1. Climate Change: Vulnerability and Adaptation: Course Code: GEO-P-DSE-6-02-PR: Practical**

Climate change threatens people with food and water scarcity, increased flooding, extreme heat, more disease, and economic loss. Human migration and conflict can be a result. The World Health Organization (WHO) calls climate change the greatest threat to global health in the 21st century. The degree to which a system is susceptible to, or unable to cope with, adverse effects of climate change, including climate variability and extremes. It is a function of the character, magnitude and rate of climate variation to which a system is exposed, its sensitivity, and its adaptive capacity. Climate change adaptation refers to actions that reduce the negative impact of climate change, while taking advantage of potential new opportunities. It involves adjusting policies and actions because of observed or expected changes in climate.

**Name of the student studied course on experiential learning through project work/field work/internship**

AVIJIT ROY, BARNALI SARKAR, BISWAJIT BISWAS, GOURAV BASAK, JHILAM DAS, JAYABRATA SEN, NABAKISHOR SARKAR, PRIYANKA PAUL, PRIYANKA ROY, SANJOY SARKAR, SOUMEN DAS

## Department of History

### Sukanta Mahavidyalaya

#### Departmental Report

##### 1.3.3 Details of Experiential Learning Project Work.

In the 3<sup>rd</sup> and 4<sup>th</sup> Semester of History (Hons.) and 3<sup>rd</sup>, 4<sup>th</sup>, 5<sup>th</sup> and 6<sup>th</sup> Semesters of History Programme of CBCS syllabus SEC Papers 131&94 are practical papers based on Projects. The two papers which our department teaches is An Introduction to Indian Art and Architecture and the other being Museum Studies. In the academic session of 2020-21 there were 51 (Hons.) students and 64 Programme students in 3<sup>rd</sup> Semester and 51 (Hons.) students and 64 Programme students in 4<sup>th</sup> Semester taking these papers. There were 232 students in 5<sup>th</sup> and 6<sup>th</sup> Semester in Programme taking this paper. Altogether 430 students participated in the experiential learning. Due to the pandemic situation classes were conducted online on Google meet and study materials were shared on whatsapp group and engaged portal of our College website. For the Covid 19 situations instead of projects Assignments were given to the students.

Prof. Parthasarathi Choudhury  
HOD & Associate Professor

### Sukanta Mahavidyalaya

#### 1.3.3. A project report on Experimental learning and Student details

The students of B.Sc. 6<sup>th</sup> semester Computer Science honours have successfully completed their final year project works through online mode. This web based project has been implemented using different software. One group consisting three students has been formed under the supervision of one experienced faculty member of the concerned department. In the pandemic situation, the whole work has been performed through online mode and the evaluation of their respective works has been done through online mode only. The visual recording of their project presentation has been done using Google Gsuite platform. The title of project report is presented below - ONLINE SHOPPING WEBSITE PROJECT.

The students of B.Sc. 6<sup>th</sup> semester Computer Science Program course have successfully completed their final year project works through online mode. The software based and web based projects have been implemented using various software. There were total 12 numbers of students in this batch, hence, four groups having three students in each one, have been constituted under the supervision of four different experienced faculty members of the concerned department. In the pandemic situation, the whole work has been performed through online mode and the evaluation of their respective works has been done through online mode only. The visual recording of their project presentation has been done using Google Gsuite platform. The title of project report is listed below -

### Departmental Report on

#### 1.3.3 Number of students undertaking project work/field work/ internships

Field work/project work is the required component of the BA/B.Sc./BBA (Honours & General) students for Ability Enhancement Compulsory Course (AECC1) under Environmental Studies programme. The onset of the covid-19 pandemic, as well as the ongoing scenario, has altered the overall educational system. Field work/project work has none of that. The Department of Environmental Science was unable to do any organized fieldwork as a result of this scenario. All the students of Environmental Studies [SEM - I, Session 2020-21] were given specific topic for preparation of their eco-project. The students were divided into 10 groups and provided four topics namely i) listing of economic plants in nearby locality, ii) listing of birds in nearby locality on seasonal basis, iii) record of insects in potato fields, and iv) components of a riverine system of Dooars for their project submission. Altogether 2317 students were participated in the field work. Due to the epidemic, courses were held online using Google Meet, and study materials were exchanged *via* Whatsapp group as well as uploaded in our college's portal.

### Notice

Date – 09/02/2021

#### Department of Environmental Science Sukanta Mahavidyalaya

#### Topic – Environmental Project Submission

All the students of Environmental Studies [SEM-I, Session 2020-21] are hereby informed to follow the topic for preparation of their eco-project.

| Roll Number      | Topic   |
|------------------|---|
| 001 - 300        | Listing of economic plants in nearby locality         |
| 301 - 600        | Listing of birds in nearby locality on seasonal basis |
| 601 - 900        | Record of insects in potato fields                    |
| 901 - 1200       | Components of a riverine system of Dooars             |
| 1201 - 1500      | Listing of economic plants in nearby locality         |
| 1501 - 1800      | Listing of birds in nearby locality on seasonal basis |
| 1801 - 2100      | Record of insects in potato fields                    |
| 2101 - 2400      | Components of a riverine system of Dooars             |
| 2401 onwards     | Listing of economic plants in nearby locality         |
| Science Students | Listing of birds in nearby locality on seasonal basis |

**\*\* Please submit your project in single PDF file.**

Date of submission: Within 28<sup>th</sup> February 2021
