Report of Anti Ragging Cell

Session: 2018-2019

Posters and anti-ragging slogans were put up in the college campus in accordance with UGC instructions in an effort to educate students about the seriousness of ragging as a crime. The committee undertakes necessary steps so that all the students signed the online anti-ragging affidavit during the time of admission. The committee's mission is to educate students about the dangers of ragging. In this session the committee has received one complaint from a student and addressed the same immediately. The problem was resolved after discussion with both sides and the cell identified that the case was not related to any kind of ragging issue.
