4.1.1. - The Institution has adequate infrastructure and physical facilities for teaching-learning. viz., classrooms, laboratories, computing equipment etc.

This institution is only 41 years old. Since its establishment in the year 1981, it has grown up significantly. This institution has a well-developed building of 7000 sq. meters with 5 blocks dedicated to teaching-learning. It is equipped with facilities like a library with e-book facilities, laboratories, and technologically enabled classrooms for teaching to achieve academic excellence. There are 19 departments running in the college along with 2 study Centres under the Directorate of distance education namely, NSOU DDE (both UG and PG courses) and RBU DDE (only PG course). Also, BBA is taught here under a self-financed scheme. The institution has a number of classes and laboratories (60 in number) and computers (129 in number) although the figures shown are not adequate. The institution has a separate building for science students where separate classrooms are there for different honors subjects. In the Arts stream, the same rooms are used for different courses. The college needs more classrooms to accommodate the growing demand of the students. Laboratories are equipped with necessary instruments, chemicals, and software as per the needs of the students according to the current syllabus. Support facilities include a well-maintained canteen, sports ground, sports room, and medicinal plants around the playground. Some classes are scheduled for maximum utilization of available physical infrastructure which includes a smart board, overhead projector, and sound system. The remaining classrooms are used for teaching in chalk and talk mode. The library is equipped with Integrated Library Management System. KOHA software is being used to deal with the students' demand for books.
